

and respect for human rights to their fellow countrymen. We must continue to honor those who made such dramatic sacrifices for their beliefs. In this momentous year in which China marks not only the tenth anniversary of Tiananmen Square, but also the fiftieth anniversary of the founding of the People's Republic of China, we must not choose silence on this issue. Only by repeating our demands for change, can we appropriately honor those who were willing to sacrifice all to achieve a better life for the people of China.

Mr. President, I strongly commend my friends, the Senator from Arkansas (Mr. HUTCHINSON) and the Senator from Minnesota (Mr. WELLSTONE) for their leadership on this important, long-standing issue.●

#### AUTHORITY FOR COMMITTEES TO MEET

##### COMMITTEE ON COMMERCE, SCIENCE, AND TRANSPORTATION

Mr. GRAMS. Mr. President, I ask unanimous consent that the Senate Committee on Commerce, Science, and Transportation be authorized to meet on Tuesday, May 18, 1999, at 9:30 a.m. on TV violence and safe harbor legislation.

The PRESIDING OFFICER. Without objection, it is so ordered.

##### COMMITTEE ON FINANCE

Mr. GRAMS. Mr. President, the Finance Committee requests unanimous consent to conduct a hearing on Tuesday, May 18, 1999 beginning at 10:00 a.m. in room 215 Dirksen.

The PRESIDING OFFICER. Without objection, it is so ordered.

##### COMMITTEE ON HEALTH, EDUCATION, LABOR, AND PENSIONS

Mr. GRAMS. Mr. President, I ask unanimous consent that the Committee on Health, Education, Labor, and Pensions be authorized to meet for a hearing on "ESEA: Educating the Forgotten Half" during the session of the Senate on Tuesday, May 18, 1999, at 10:00 a.m.

The PRESIDING OFFICER. Without objection, it is so ordered.

##### SUBCOMMITTEE ON CLEAN AIR, WETLANDS, PRIVATE PROPERTY, AND NUCLEAR SAFETY

Mr. GRAMS. Mr. President, I ask unanimous consent that the Subcommittee on Clean Air, Wetlands, Private Property, and Nuclear Safety be granted permission to conduct a hearing on the Environmental Protection Agency's proposed sulfur standard for gasoline as contained in the proposed Tier Two standard for automobiles Tuesday, May 18, 9:30 a.m., Hearing Room (SD-406).

The PRESIDING OFFICER. Without objection, it is so ordered.

##### SUBCOMMITTEE ON ENERGY RESEARCH, DEVELOPMENT, PRODUCTION, AND REGULATION

Mr. GRAMS. Mr. President, I ask unanimous consent that the Sub-

committee on Energy Research, Development, Production, and Regulation of the Committee on Energy and Natural Resources be granted permission to meet during the session of the Senate on Tuesday, May 18, for purposes of conducting a subcommittee hearing, which is scheduled to begin at 2:30 p.m. The purpose of this hearing is to receive testimony on S. 924, the Federal Royalty Certainty Act.

The PRESIDING OFFICER. Without objection, it is so ordered.

##### SUBCOMMITTEE ON FORESTRY CONSERVATION AND RURAL REVITALIZATION

Mr. GRAMS. Mr. President, I ask unanimous consent that the Committee on Agriculture, Nutrition, and Forestry Subcommittee on Forestry, Conservation and Rural Revitalization be allowed to meet during the session of the Senate on Tuesday May 18, 1999. The purpose of this meeting will be to discuss noxious weeds and plant pests.

The PRESIDING OFFICER. Without objection, it is so ordered.

#### ADDITIONAL STATEMENTS

##### OLDER AMERICANS MONTH

● Mr. GRASSLEY. Mr. President, it may be human nature to overlook the hardships of previous generations. We don't think about suffering we don't have to endure. This is the way it should be. And this is the hope of America's innovators, who work to ease misfortune for our children and grandchildren.

One of those innovators is a 101-year-old woman from Sioux City, Iowa. Louise Humphrey was a leading light in the battle against polio, one of the most terrifying illnesses of our century. Because of her work, and the work of others devoted to finding a cure, polio is virtually non-existent in our country.

It's hard for anyone who didn't live through the 1940s and 1950s to understand fully the fear of polio. The disease was highly contagious and sometimes fatal. It attacked the lungs and the limbs. It immobilized its victims, made them struggle for breath and often forced them to breathe through mechanical iron lungs. Parents wouldn't allow their children to go swimming, or to drink out of public fountains, for fear of contagion. Those children fortunate enough to escape the illness saw their classmates return to school in leg braces and watched news reels of people in iron lungs.

At the height of the epidemic, during the late 1940s and early 1950s, polio struck between 20,000 to 50,000 Americans each year. In one year—1952—58,000 people caught the disease. Most of them were children.

Mrs. Humphrey of Sioux City became interested in polio before the height of the epidemic. In the 1930s, according to

the Sioux City Journal, she saw firsthand the ravaging effects of polio after meeting a man who had been disabled by the disease. She and her husband, the late Dr. J. Hubert Humphrey, a Sioux City dentist, became leaders in the fight against polio. They headed the Woodbury County chapter of the National Foundation for Infantile Paralysis. Mrs. Humphrey was elected state chairman of the woman's division of the foundation.

The Humphreys raised thousands of dollars for equipment and therapy to battle the disease. They enlisted entertainers and circus performers in the cause, hosting these individuals at fund-raising parties. Their guests included Bob Hope, clown Emmett Kelly and a ham sandwich-eating elephant.

Their work contributed to a climate in which Jonas Salk developed the first polio vaccine. His vaccine, and another developed by Dr. Albert Sabin, soon became widely available. Polio is virtually non-existent in our country, although it remains a Third World threat.

Mrs. Humphrey has said she has no secret for living such a long life. She advises people to "just be happy and be well." She has never had an ache or pain. What she did have in abundance was empathy, kindness, generosity and devotion. Because of her contributions, millions of American children will live without a debilitating disease.

On June 3, Mrs. Humphrey will turn 102. In advance of her birthday, during Older Americans Month, I want to thank Mrs. Humphrey for helping to make our country strong. Mrs. Humphrey, with her clear vision and compassionate concern for America's children, perfectly illustrates the theme of Older Americans Month: "Honor the Past, Imagine the Future: Toward a Society for All Ages."●

##### TRIBUTE TO JOE TAUB

● Mr. LAUTENBERG. Mr. President, I rise today to pay tribute to a great friend, Joe Taub, in celebration of his 70th birthday on May 19th. Joe is a tremendously hard worker and a world-class philanthropist, and I'm proud to say he's been my friend for almost 50 years.

Joe came from humble beginnings in Paterson, NJ to join me in founding Automatic Data Processing in 1949. Today, the company employs over 30,000 people in the U.S. and Europe. Even after leaving ADP in 1971, Joe continued to lead an active business life, starting his own company and becoming owner of the New Jersey Nets basketball team. Along the way, Joe donated his time to several charities and with his wife, Arlene, established the Taub-Gorelick Laboratory at Memorial Sloan Kettering Cancer Center to aid breast cancer victims.

Joe has always worked to improve the world around him. To help keep
